Plastic free campus:

- ATME College of Engineering has belief in Sustainable development & Growth. Since from the inception the college campus is made Plastic free and sufficient care has to be taken in this direction.
- Signage boards saying "Plastic Free Zone" is placed in each block at key positions along with the dustbins.
- Two dustbins are placed under each sign board for the easy segregation of waste as biodegradable and non-degradable waste.
- Also, Students are advised and trained in the direction of minimalistic use of plastics and reduction in the use of Plastics.
- Every year, College will celebrate to mark the World Environment Day. Students and staffs are actively participating in these occasions and awareness program is organized for students on the use of plastics, side effects of plastics and safe disposal of plastics.
